

Arjun Verma — arjun.verma@example.com

Role: Machine Learning Engineer

Summary:

Focused on building ML pipelines and retrieval-augmented systems. Interested in personalized recommendation systems using embeddings and vector stores.

Skills:

- **Scikit-Learn, TensorFlow**
- **FAISS, ChromaDB, LangChain**
- **Gemini API, Google Colab**

Projects:

- **Resume RAG Matcher**
- **Session Recommendation Engine**
- **NLP Classifier using Gemini**
-
